AEREM[®]

TO FILTER & PROTECT

OUR MISSION

AEREM focuses on its customers and partners needs in the finishing industry. Every relationship is a privileged partnership based on professionalism, dialog and trust. Delivering the best service with performant, environmentally friendly quality products easy to dispose of is our commitment since 1963.

Our mission is to develop, manufacture and supply high performant filtration and protection products for spray booths that aim to keep a clean and safe working environment while enhancing the spray booths productivity.

OUR VISION

AEREM's ambition is to affirm its position by becoming an international multi-brand company focused on the global finishing industry with a wide variety of renowned and innovative filtration and protection products.

OUR VALUES

AEREM is above all a work of men and women united around the world for the success of the Group. They all share the same values in a solidarity and caring climate.

ENVIRONMENT

Protecting the environment is the responsibility of everyone. AEREM uses recycled raw materials in all of its products. Our sharply tuned and performant production processes results in low waste and low energy consumption.

PROTECTION

We seriously consider the need to protect the operator and provide a secure working environment through our products and services. This is why our filters are free of polluting or toxic products. They can be stored, handled and incinerated or landfilled safely.

RESPECT & INTEGRITY

We treat others with respect and comply with all internal and external norms and regulations. We strive to always act with transparency and honesty.

CUSTOMER CARE

Because all our customers are important, our priority is to support them in their projects, build and maintain a long-term partnership to be able to bring the answers adapted to each need. Over 900 distributors around the world trust us.

MULTICULTURALISM

Aerem is a selfie of multiculturalism and diversity. Our teams are made of men and women of different languages, cultures and origins. It is in this spirit of openness and diversity that we seek to build a partnership with you.

Our Best Products

Andreae Filters

High holding capacity up to 5 times higher than other filter types.

High efficiency near 100% depending on the coating used.

Ecological product.

uCube

Efficacy Up To 99,45%

Over 30kg Of Loading Capacity

Low Airflow Resistance

Andreae® Filters manufacturing technology

Starter

The Original

- height 100 cm:

- 260 pleats
- Net weight AF113: 10,40 kg

Total → +20%

Pleats Regularity

More paper + more weight
= Better quality

More pleats
= More filtration area

Correct holes position
= More loading capacity

VS

Other Filter Types

Filter of 100 cm:

- 200-230 pleats 20% less
- Net weight white filter with extension limitor : 7-8kg

Total → -20%

Pleats Regularity

Less paper + less weight
= Bad quality

Less pleats
= Less filtration area

Wrong holes position
= Less loading capacity

The best range of inertia separation filters on the market. High loading capacity, easy to ship, easy to store, high efficient filters.

- ✓ High holding capacity up to 5 times higher than other filter types.
- ✓ High efficiency near 100% depending on the paint used.
- ✓ Fewer filter changes resulting in higher spray booth productivity.
- ✓ Constant airflow in the spray booth throughout the life of the filter.
- ✓ Easiest filter to use on the market.
- ✓ Reduced freight and storage costs.
- ✓ Ecological product.

Why choose uCube ?

From the beginning of the development, we wanted to use the best of the existing and recyclable raw materials, namely cardboard and polyester.

The mix of these materials gave the best load capacity and filtration, after two years of development and a hundred test, the universal cube was born in early 2019.

- ✓ Over 30kg Of Loading Capacity
- ✓ Efficacy Up To 99,45%
- ✓ Cost Savings
- ✓ Longer Filter Life
- ✓ Low Airflow Resistance
- ✓ Easy To Install
- ✓ Easy Transport
