

Ahlstrom-Munksjö

Extia[®]

Extended Filtration Lifetime
For Air Pollution Control

**AHLSTRÖM
MUNKSJÖ**

Protecting people and the environment

Quality of air from production processes is a significant factor in the safety, productivity and environmental integration of any industrial site.

Air pollution control and dust collection filter media protect people inside and outside the factory, along with the environment, from particles emitted into the atmosphere.

Created by Ahlstrom-Munksjö specifically for Industrial Filtration markets, Extia® is a 100% synthetic, highly durable, pulse cleanable filter media that offers extended filtration lifetime, whilst effectively removing coarse particulates at a lower level of pressure drop.

Expanded Portfolio

Since the introduction of Extia® 1000 in November 2018, Ahlstrom-Munksjö has expanded its portfolio to offer a comprehensive Extia® range:

- ☑ **A complete Extia® mid efficiency range** – includes flame retardant, surface conductive and food approved versions, tailor-made to meet the safety requirements of specific industrial Air Pollution Control applications
- ☑ **An Extia® high efficiency range** – reaching efficiency levels up to EN1822 H13, specifically designed for applications with very fine particles and critical dusts

The benefits of Extia®

- ☑ **Extended filtration lifetime** – helping to extend the operational duration before needing to change the filters
- ☑ **Effectively removes particulates and dust over total filter time, at lower level of pressure drop** – delivering better reduction of industrial emissions and energy savings
- ☑ **Easier to convert into a filter** – delivering faster knife pleating, plus offering suitability for rotary pleating
- ☑ **A comprehensive product portfolio** – including a complete mid efficiency range where additional safety features are required and a high efficiency range, reaching efficiency level up to EN1822 H13
- ☑ **Supply chain efficiency optimized** – with complete portfolio directly available from one reputable supplier
