Product Specifications

SPECIFICATIONS

- Stainless Steel
- Carbon Steel
- Aluminum
- Special Alloys

THICKNESS

- .018" to .12" thick

TUBE DIAMETERS

Nearly any OD or ID, Standard and Metric
.30" ID to 36" OD

PERFORATED PATTERNS

- All Common Perf Patterns
- Straight and Staggered Patterns
- Custom Patterns
- End and Seam Margins
- Skip Patterns
- Unperforated Tube

SEAM STYLE

- Straight Weld Seam
- Spiral Weld Seam
- Tack Weld Seam
- Overlap and Spot/ Resistance Weld Seam

Surface Finishes Options

Surface Finishes

Customers can save time and hassle, and assure quality, by taking advantage of our plating and finishing options:

- Zinc Plating (clear, bright, yellow)
- Bright Tin Plating
- Nickel Plating
- Electro-Polishing
- Phosphate Coatings
- Industrial Washing
- Ultra Sonic Cleaning
- Passivation
- Heat Treating
- De-Rust / Anti Rust
- Vibratory Deburr

Secondary Options Include

- Tube Cutting
- Deburring
- End Forming (Flaring, Radius End & Sizing)
- Mechanical Polishing
- Electro-Polishing
- Abrasive Blasting
- Counterbore
- Precision Welding: Resistance, TIG and MIG
- Plating and Finishing
