Broche® Medikal

BROCHE nonwovens

## Our Responsibility

All our production processes are carried out with a strong sense of responsibility toward protecting nature.

**The energy we use is %100 sourced from renewable resources.**

## Our focus

Providing effective solutions and giving you better value for money.

## Our Motto

We are big enough to meet your needs, yet small enough to offer flexible and quick responses to solve the challenges you face.

## Our Journey

- **1995:** Our company has started operating in nonwoven sector as a family company in 1995 under the "BROCHE" brand name.
- **2006:** Has started production and sale of disposable Surgical drapes , surgical drape sets and gowns with Broche brand in its own facilities to convey its experiment, in non-wowen sector since 1995, to medical sector.
- **2008:** Has started to produce gloves with BROCHE brand by making OEM agreements with the world's largest and most respecte glove manufacturers and exported to more than 40 countries in a short time.
- **2012:** Second factory has started ta production in Chemical Bonded, Thermo Bonded Nonwoven fabrics, PE Film production and lamination processes are a carried in the same factory.
- **2020:** Third factory has started to production of PP Spunbond, Meltblown, Breathable and Non-Breathable PE Film used in the medical and hygiene sector.
- **2021:** Has become a very important global player in the sectors both in disposable Surgical Drapes, surgical drape sets, gowns and nonwoven fabrics. Has served thousands of customers in more than 120 countries without interrupting production during the pandemic period.
- **2023-2025:** Have continued to invest in automation to enhance production efficiency and deliver more competitively priced products to our customers, without compromising our commitment to sustainability and environmental responsibility.
