Clean Air, Activated Carbon Solutions

The air we breathe is a universal and vital asset. Keeping the air clean is a shared responsibility, especially now that air quality is increasingly under pressure. CF Industrial plays a leading role in improving the indoor and outdoor air quality of businesses and buildings. Our focus is on (individual) sources of air pollution and controlling emissions. Where groups of people work, live and dwell, we strive for optimized air quality. Act now, for the future.

The absolute number one in carbon filters

In a market where various providers sometimes offer cheaper, but less qualitative filters, CF Industrial has stood for reliability and top quality since 1987. With us, you can trust that you are investing in sustainable and effective solutions, backed by our years of expertise.

Strengthening Safety: REACH Compliance

At CF Industrial, our commitment to environmental and human health is unwavering. We adhere to the standards set forth by REACH Compliancy, a European Union regulation adopted to better protect human health and the environment from the potential risk of chemical substances.

With CF Industrial, our activated carbon filters not only meet REACH Compliancy standards, but they also champion safety, sustainability, and environmental stewardship, ensuring a healthier future for all.

Expertise & advice

CF Industrial is a 100% independent manufacturer of air purification filters. Not only do we manufacture high-quality products, but thanks to our expertise and experience, we offer the best solutions for each unique situation.

Filters and mounting plates

Activated carbon and filtermedia

Cassettes and modules

More than 35 years of proven and committed performance!

Why choose CFI?

At CF Industrial, we understand that every situation is unique. Whether dealing with nuisance odours, equipment corrosion, environmental complaints or complying with government regulations, we offer expert advice and customized solutions. Our activated carbon and innovative oxidant filter media provide long-lasting and reliable air and water purification.

Innovation & customer support

As your partner in air quality, we strive for more than just high-quality products. We are constantly innovating to bring you the best solutions. In addition, we have optimized our logistics and customer service to make your experience with us as seamless and worry-free as possible.

Worldwide reliability

Our filters have been a trusted choice in over 40 countries for odour and pollutant filtration for many years. No matter where you are, you can always count on our local service and expertise. We pride ourselves on our global presence and ability to connect locally to our customers' unique needs.

[About Us](#)

Clean Air, Activated Carbon Solutions

Our solutions

Discover the power of visible results in an invisible world! Gases and harmful particles are intangible, but their impact is real.

At CF Industrial, we understand that every situation is unique, influenced by sector, location and production. That's why we don't offer standard products, but custom-made solutions.

Our tried-and-true approach? **Activated carbon and oxidant filter media, the gold standard in air purification.**

To provide you with the best possible solution, we dive deep into your specific situation. Whether you are dealing with nuisance odors, equipment damage, environmental complaints or have to take measures due to governmental regulations, we have the answer.

The smartest media

Activated carbon and oxidant filter media are our core products for air and water purification. We optimize absorption power with various techniques and offer specific blends for complex situations.

CP modules

CF Industrial CP modules, or cassettes, are designed for the elimination of noxious gases and odours in light- to medium-duty industries. The V-shaped design prevents air bypass even with slight settling of the medium.
