

Innovation Beyond Boundaries

Our Brands:

In 2018, ECOAIR GROUP identified a substantial market opportunity. We observed strong demand from discerning consumers for high-quality Western-made products renowned for their exceptional craftsmanship and precision. Simultaneously, we recognized the importance of having a flexible, locally-rooted partner capable of swiftly adapting to the evolving demands of dynamic sites and markets. This realization paved the way for our journey toward success.

ECQAIR Group, headquartered in the UAE, is a dynamic and ambitious manufacturing and trade business specializing in the HVAC-R industry. Our primary focus lies in providing customized products and services tailored to each customer's unique challenges.

We specialize in designing, manufacturing, installing, commissioning, and maintaining various HVAC-R products. Our commitment ensures that each system is individually crafted to meet specific needs.

Our comprehensive product ecosystem includes Air Handling Units, Condensing Units, Fan Coil Units, Commercial Kitchen Hoods, Ecology Units, Demand Control Ventilation, Air Purification and Filtration Products, Heating and Cooling Systems, Recirculation Systems, and Wet Scrubbers. Additionally, we offer comprehensive services such as MEP design, expert consultation, on-site services, and annual maintenance.

Together, we
strive toward a
brighter future.

Driven by a vision of global expansion, we currently serve the Middle East and Eastern Europe markets. Our dynamic and experienced leadership team possesses a deep understanding of the diverse HVAC-R sector. We collaborate closely with contractors and consultants, providing full support to ensure timely project completion within budget constraints.

Sustainability has become increasingly critical, as the demand for environmentally friendly solutions reaches unprecedented levels.

As dedicated engineers and innovators, we have collaboratively crafted sustainable engineering solutions that prioritize the preservation of our natural environment.

A person is shown in profile, reaching out to touch a large, glowing, circular structure composed of many concentric rings of light. The light is a mix of blue, purple, and pink, creating a sense of depth and movement. The person is wearing a dark shirt and jeans. The background is dark, making the light structure stand out.

Innovation Beyond Boundaries

Vision

We strategically expand our global footprint by delivering superior and innovative products, complemented by tailored solutions. Our commitment to excellence ensures that we remain at the forefront of industry advancements.

Mission

Our meticulously crafted engineering design solutions uphold the highest standards while prioritizing environmental sustainability. By integrating eco-friendly practices, we contribute to a greener future for generations to come.

Value

Trust and strength form the bedrock of our business relationships. We prioritize cultivating enduring partnerships with clients, suppliers, and stakeholders, fostering mutual success and resilience.

Strengthening Leadership

Nirmal K V - Managing Director

As we set our sights on a vibrant tomorrow, we draw inspiration from the unwavering effort invested today and the paths we've traversed in the past. Our organization thrives on dynamism, committed to consistently delivering top-tier services that exemplify excellence.

During the 2018-19 period, we astutely identified a market gap. Discerning clients sought imported products renowned for their superior quality and meticulous craftsmanship. Simultaneously, they demanded the agility of local responsiveness to swiftly respond to changing market conditions. Recognizing this dual need, we strategically positioned ourselves, thereby paving the way for our remarkable success.

Our unwavering dedication lies in providing an unparalleled client experience through meticulously tailored products and services. We welcome custom designs and innovative solutions, ensuring that we address the unique requirements of each client promptly and effectively.

Guided by a team of ambitious and talented professionals, we envision a promising future. Our commitment extends beyond quality-driven products adhering to both local and international standards. We actively champion environmental preservation, securing a sustainable legacy for generations to come.

Sales and Distribution Network

As a premier HVAC-R company, we are steadfast in our commitment to delivering outstanding solutions that enhance human experiences and positively impact lives on a global scale.

The ECOAIR Group, a diverse multinational corporation headquartered in Umm Al Quwain, boasts over 17 sales and distribution facilities operating across approximately 160 products worldwide. EcoAir champions comfortable and sustainable living, leveraging innovative technology as a manufacturing trailblazer to produce a comprehensive array of products and solutions.

In today's interconnected world, characterized by a single global market, we encounter new challenges as we pursue our objectives.

Quality and Certifications

At ECOAIR, we strictly adhere to both local and international quality and safety standards. Our unwavering commitment to excellence is reflected in our Quality, Health, and Safety Policies, which underscore the paramount importance of maintaining an incident-free environment.

We don't just meet standards; We set them!

Our pursuit of quality, safety, and environmental consciousness defines our legacy.

Health and Safety First

We prioritize the well-being of our employees. Their safety is non-negotiable, and we continuously invest in measures that safeguard their health.

Our goal is to create a workplace where every individual returns home safely each day.

Elevating Quality Standards:

Quality assurance and control are at the heart of our operations. We constantly raise the bar to meet and exceed international quality requirements.

Our products and services reflect precision, reliability, and meticulous attention to detail.

Environmental Stewardship:

Environmental responsibility is integral to our ethos. We actively minimize our ecological footprint and contribute to sustainable practices.

ISO 14001:2015 compliance guides our environmental initiatives.

ISO Compliance:

We take pride in our international accreditations. Our procedures align with ISO 9001:2015 (Quality Management), ISO 14001:2015 (Environmental Management), and ISO 45001:2018 (Occupational Health and Safety).

These certifications validate our commitment to excellence and provide assurance to our valued stakeholders.
