Title:

F&S – FILTRIEREN UND SEPARIEREN

Brief description:

F&S Filtrieren und Separieren is the only German-language trade magazine that has been dealing exclusively with all types of filtration media for the last 36 years. Our comprehensive coverage includes particle separation from gas and liquid flows, classification and separation of bulk solids, membrane and centrifuge technology as well as the particle measuring technology sectors that are relevant to these processes. We report on current industrial developments and scientific research results.

Target groups:

Process engineers, engineers and CEOs in all the relevant industries: Chemical, pharmaceutical, (waste) water management, food and beverage industries, environmental and energy technologies, manufacturing and processing industries, machinery and plant engineering.

Publication frequency:

7 issues annually and possible special issues

Magazine format:

210 mm wide x 297 mm high, DIN A4

Volume:

37th Volume 2023

Keywords and topics

- Engineering
- Solid-liquid separation
- Filtermedia
- Gas processing
- Solutions and mixtures
- Air pollution control
- Membrane technology
- Particle measurement technology
- Pumps
- Drying technology
- Water and wastewater processing
- Filtration
- Separation

Job advertisement

Price on request

All prices are exclusive of VAT.

Bound inserts/supplements:

The condition for order acceptance and confirmation by the publisher is the submission of a binding sample. Supplements may only advertise the sales programme of an advertiser. They must be designed in such a way that they cannot be confused with the editorial part of the magazine. Inserts must have a closed edge. This means inserts may only be folded in the wrap fold. The insertion of brochures is also possible, provided they have a closed edge. No postage will be charged for inserts and items up to 2 mm high. Items 3 mm or more in height will incur additional postage charges. Inserts and additional technical costs are not discounted.

Note:

Inserts and bound-in inserts must be bundled into manageable quantities, properly packaged and machine-processable and delivered free to the customer's address no later than 3 weeks before the first day of sale. Information on the number of transport units, magazine title and issue number is required. A sample should be visibly attached to each packaging unit.

Delivery to:

Rhein-Main Buchbinderei GmbH
Ostring 13
65205 Wiesbaden-Nordenstadt
Germany

Bound inserts

Required quantity: 6.500

Weight of the bound insert: minimum 135 g/m²

Format for 2 sheets 420 x 297 mm + 3 mm bleed on all edges € 4,995.–

Bound inserts must be delivered untrimmed and unfolded. The front page and the run of the bound-in insert must be marked. Bound inserts must be of such a type and design that additional preparation and processing are not required. Complications and additional folding and gluing work will be charged separately.

Supplements

Required quantity: 6.500

2-sided up to format 205 mm wide and 292 mm high up to 25 g, minimum DIN A6), total circulation: € 1,920.–

Pasted advertising media:

Postcards, data carriers, product samples etc. on carrier advertisements on request.

FREUDENBERG
 INNOVATING TOGETHER

Filtration solutions for a better quality of life

As a global technology leader in air and liquid filtration, Freudenberg Filtration Technologies develops and produces high-performance, energy-efficient filtration solutions which increase the efficiency of industrial processes, contribute to resource conservation and protect the environment.

- With its Vitec® and micropac® global brands, Freudenberg offers innovative filter elements and systems for the energy, hygienic, food & beverage, health and personal protective, marine, aviation sector, general ventilation and cleanroom technology, and for highly specialized applications.
- Vitec® stands for reliable process air optimization, for products to improve indoor air quality in buildings and for high-quality liquid filtration solutions. These include the process and engineering design of water filtration systems for residential use as well as drinking water quality.
- micropac® filters for cars, coaches and buses provide health protection and safe comfort, micropac® engine intake air filters improve engine performance.
- A comprehensive range of pleated solutions also encompasses and optimizes air and liquid filtration in the pharmaceutical, food, chemical, and semi-conductor industry. Flexible air quality management concepts offer the perfect solution for indoor air quality.

Filtrationslösungen für mehr Lebensqualität

Als globaler Technologieführer in der Luft- und Flüssigkeitsfiltration entwickelt und produziert Freudenberg Filtration Technologies hochleistungsfähige, energieeffiziente Filtrationslösungen, die Ressourcen schonen, Umwelt und Gesundheit fördern und Umwelt schützen.

- Mit den Marken Vitec® und micropac® bietet Freudenberg innovative Filterelemente und Systeme für die Energie, Hygiene, Lebensmittel- und Gesundheits-, Luftfahrt und Transport (Flughafen, Seefahrt, Flugzeug), allgemeine Lüftung und Raumluft-Technologie für hochverursachte Spezialanwendungen.
- Vitec® steht für zuverlässige Prozessluft, für Produkte zur Verbesserung der Raumluftqualität in Gebäuden und für hochwertige Wasserfiltrationslösungen für den privaten Gebrauch und für die Trinkwasserqualität.
- micropac® Filterelemente für PKW und Busse bieten Gesundheitsschutz und Fahrkomfort, micropac® Motorsauger verbessern die Motorleistung.
- Eine umfassende Produktpalette umfasst auch die Filtration in der Pharmazie, der Lebensmittel- und Halbleiterindustrie. Flexible Luftqualitätsmanagement-Konzepte bieten die perfekte Lösung für die Innenraumluftqualität.

Core competencies

- Protecting people and environment
- Optimizing processes
- Cost-efficient, reliable, long-lasting
- Energy efficient
- System solutions & services

Kernkompetenzen

- Menschen und Umwelt schützen
- Prozesse optimieren
- Wirtschaftlich, verlässlich, langlebig
- Energieeffizient

Global Guide 2023/2024 43

NEW: Premium online

In future, the new **F&S online platform** will also enable you to expand the booked Global Guide BASICS entry with your current product or company brochures, videos, case studies, presentations and a current contact person.

With this extended **PREMIUM ENTRY**, we can supplement your company profile from the already booked print and online BASICS entry with additional information from your company. We are going to extend the reach of your information in your target group.

Upgrading to **PREMIUM ENTRY** is really easy! You provide us with additional content (photos, videos, case studies, presentations) and we will enter the data completely for you.

On the landing page of our company portal, we report on current topics and news from the field of filtration and separation. The matching **PREMIUM PROFILES** are displayed in the environment of the editorial main topics. You can have additional content posted at regular intervals and thus achieve a higher Google ranking.

Comprehensive media information:
www.fs-journal.de/global-guide

Advantages

- Clearly defined target group
- Range extension
- Better Google Ranking
- Get found! Higher relevance for search engines
- Easy to use. We set up all the company data you provide.
- Linking with social media profiles
- Name a contact person
- Linking to your company news
- Opportunity for PDF downloads (Case Studies, brochures)
- Video inclusion possible

Special Offer: PREMIUM ENTRY

The price for the addition of all additional content to your 1/1-page company portrait is € 550.- per year. If you book the entire duration of the Global Guide (2 years), you will already receive a special price for the second year.

BASICS ENTRY

inclusive

Your company profile will be taken over from the booked Global Guide company portrait online and linked to your website. (2 years)

PREMIUM ENTRY – 1 year

€ 550.-

Expand your entry with relevant company information - 365 days - online

PREMIUM ENTRY – 2 years

€ 990.-

Expand your entry with relevant company information - online - for the entire duration of the Global Guide (2 years).

All prices are exclusive of VAT.

The portal offers many opportunities:

- In-depth research of content and B2B knowledge
- Daily news from the Filtration and Separation industry
- all trade fairs and events relevant for the sector
- Online Buyers Guide incl. suppliers and products
- Global Guide of the Filtration and Separation Industry
- the latest product and process developments
- large book shop
- Job offers
- and much more

All pages and functions are also optimized for mobile devices like smartphones or tablets.

Just try it!

Lead Generation

Lead generation via Content Marketing, Content: Whitepaper or Webinar

You have the content, we market it and provide you with the leads.

Marketing takes place, for example, via:

Organic posting or posting series on LinkedIn including sharing on other media sites from our company that are relevant to the topic

- LinkedIn Sponsored Posts
- Stand alone newsletter
- Newsletter Text Ads
- News reports
- News reports on the XING news page
- and many more ideas and possibilities...

You can link to your own website with your own registration forms, or we can create a neutral landing page for you on our media brands' sites.

Price*

The number of leads transmitted depends on the budget, content and your target group and is tailored to the scope and period of the campaign.

After a concrete briefing, we will create a project, cost and media plan for the lead generation campaign and a detailed offer for you.
