

# COOPERATE PRESENTATION

*When it comes  
to sealing elements*

[www.rubbercraft.com.tr](http://www.rubbercraft.com.tr)

A close-up photograph of a person's hands holding a large quantity of small, black, circular rubber seals. The seals are piled in the palm of the left hand, with some scattered on the surface below. The background is a light, neutral color with a subtle pattern of blue circles and lines.

## WHO'S RUBBER CRAFT

**As Rubber Craft Company,** since 1992 we are manufacturing rubber sealing elements. Today, with the 30 years of experiences we are the most preferred brand of our sector in home as well as in overseas market.

Currently, with the advance sealing elements products we serve to many sectors from automotive sector to white goods and as well as up to the defence industry that we aim to get right solutions for all the sectors in every aspects of the life.

## Mission

By focusing primarily on the needs of our sector to ensure innovative, high value added as well as reliable products and increasing the brand awareness by getting the right solutions to our customers' projects to both locally and internationally in the field of rubber sealing elements sector.

## Vision

To be reliable, the most preferred, environmental -friendly, innovation oriented and technology driven company which preserves its sustainable growth in the global market through the values created for stake holders and as well as for the users who gets our products world wide.

*Technological  
Innovations*

**1992**

We started with  
**a small workshop**

**2007**

Moved to **5000 m<sup>2</sup>**  
factory area.

**PAST**

# PRESENT

**2015**  
Made our  
**first export**

*Always moving  
further*

**2022**  
Now, we **export** our products  
to **30 countries** world wide.  
Our **growing** graphic is going  
**upward** every year.
