# World-class

CUSTOM ENGINEERING YOU CAN TRUST

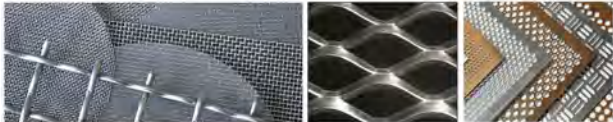

METAL MESH PRODUCTS | ENGINEERING | CUSTOMISED SOLUTIONS

# Our Profile

## HISTORY

Superfit is a manufacturing company that is located in Mumbai, India. We are enriched by 40 years of experience in Metal Trading Business. For over a decade we have been a leading manufacturing company in India that offers high-quality Industrial and Architectural Mesh products along with exclusive Fabricated Items and Customized Solutions

## ABOUT US

At Superfit, we are not only renowned for manufacturing Perforated Metals, Wire Mesh, Welded Mesh And Expanded Mesh, but we also have proven to become a trusted partner in giving end-to-end solutions to our clientele for all their complex requirements. Catering to a wide range of Industries like Chemical, Pharma, Oil & Gas, Acoustics, Defence, Construction, etc. our gamut of offerings also include Fabrication Services which are rendered in a timely fashion. To say the least, our services are respected by our unwavering clientele and are widely regarded for optimal results and cost-effectiveness.

With customer satisfaction being on top priority, our valued clients stay committed to us and trust us to be their growth partners.

# TOGETHER WE MEANS SUCCESS.

## OUR TEAM

To operate all our projects smoothly we have a team that is determined, collaborated and unite at every stretch to achieve client's goal. That's why we would like to say that we don't have employees working with us, we have achievers.

**SUPERFIT**

## STEPPING INTO THE FUTURE OF ENGINEERING.

Our modern set up is one of the best in the industry. We have always used latest available resources and technologies for our clientele. Therefore the application may be anything, but our product is sure to make a difference.

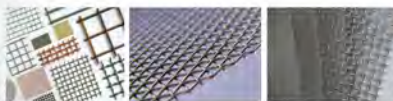

## WE ARE WELL EQUIPPED WITH:

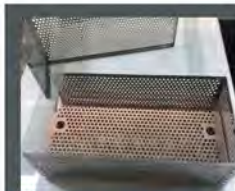

- CNC & Conventional Perforation Machines
- CNC Bending Machines
- CNC Laser Cutting Machines
- Wire Mesh & Welded Mesh Making Machines
- Expanded Metal Press
- Other Supporting Machines- Drilling, Welding, Forming, Power Press etc.

As we search forward and develop newer methods, we plan for global expansion. We believe that, we won't just see the future, but we will be the future of engineering.

PRODUCT TYPE	Std: Perforated Sheets, Coils, Plates, Strips, Circles Special: Perforated Tubes, Trays
METALS PROCESSED	MS, GI, SS, Aluminium, Copper, Brass, etc. High Nickel Alloys like Monel, Hastelloy etc.
METHODS OF PROCESS	Punching, Drilling, Laser Cutting
CAPACITY	PUNCHING: 0.2 mm to 10mm thick in SS
MAX. SHEETS SIZE	2000mm x 6000mm
TYPES OF PUNCHING	Round, Square, Capsule, Rectangular, Hexagonal, Dimpled, Dimpled Holes, Lip Type or any other special type required.
APPLICATIONS	Various Industries: Chemical, Pharma, Fertilizer, Paper, Acoustics, Oil & Gas, Defence, Construction, Fabrication & Engineering, Insulation etc.

PRODUCT TYPE	Std: Fine Wiremesh, Coarse Wiremesh, Wire Netting Special: Vibrating Screens, Conveyor Belts, Sieves
METALS PROCESSED	MS, GI, SS, Aluminium, Copper, Brass, etc. High Nickel Alloys like Monel, Hastelloy etc.
TYPES OF WEAVES	Plain, Crimped, Hexagonal, Twilled, Dutch Twilled, Tyrod
APPLICATIONS	Various Industries like Paper, Chemical, Pharma, Oil & Gas, Food, Fabrication Etc.

## 1 PERFORATED METAL

Superfit is well known for its production of high quality Perforated Metals. A major part of our production is Perforated Sheets in all kind of metals. These Perforated Metals are provided in all forms such as Sheets, Coils, Plates, Tubes, Strips, Trays, Circle, or any Custom Shape / Size Required etc.

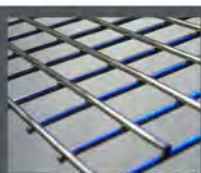

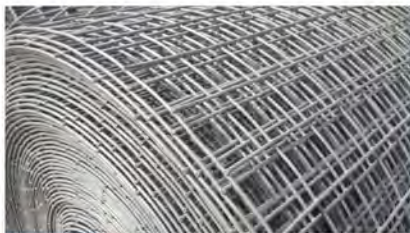

We maintain a huge stock of standard size Perforated Sheets in SS, which can be shipped immediately.

## 2 WIRE MESH

Superfit Engineering is ready to cater your demands of high-end wire meshes. As wire mesh is considered to be an essential part of separation, filtration, and similar applications, Superfit is considered an optimistic choice. We have a proven record of delivering great quality wire meshes, may it be fine or heavy industrial wire mesh used for numerous applications. Superfit Wire Mesh is High on Quality, Perfect in Dimensions. Superior in finish.

Apart from stocking standard size wire meshes, we also customize as per the customers' demands:

- 1. Fine Mesh
- 2. Plain Wire Mesh
- 3. Crimped Wire Mesh
- 4. Wire Netting

### WELDED MESH

Widely used in the industrial sector for creating barriers and segmentation of large areas, we are among a few of the celebrated names in the industry for manufacturing and exporting Welded wire mesh. Over 100 years, we have earned a huge clientele and are highly regarded for makers of superior quality Welded Mesh.

**PRODUCT TYPE** Std: Square Welded Mesh, Rectangular Welded Mesh

**METALS PROCESSED** MS, GI, SS

**APPLICATIONS** Fencing, Storage Racks, Trolleys & Conveyors, Barriers, insulation etc.

### EXPANDED METAL

Expanded Metal is made by slitting and expanding plain sheets to the ratio of 1-3 or even more at times. Superfit offers superior quality expanded metals in

**PRODUCT TYPE** Diagonal Expanded Mesh, Hexagonal Expanded Mesh

**METALS PROCESSED** MS, GI, SS, Copper, Brass, Aluminium, Monel, Titanium

**APPLICATIONS** Filters, Fencing, Construction, etc

- ☑ Mild Steel
- ☑ Stainless Steel
- ☑ Aluminium
- ☑ Copper

# YOU DESIRE, WE DELIVER

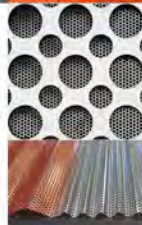

## Customised Solutions

Do you have a unique mesh product in your mind which requires customisation?

Is there a complex perforation that your application demands?

Are you looking for a mesh product which demands multiple operations to get the perfect outcome?

You're at the right space. After mastering regular Mesh Products, we have specialised in the process of customisation. To achieve that, we employ latest technology and a deep understanding of the application to create fully custom-made solution that fits right, every time.

We see ourselves not only as manufacturers but as a solution provider and therefore every metal mesh we deliver is made to order and thus fully customizable. Our team of experts will work with you from scratch till the final installation to create a masterpiece that is just right for your needs. Our customised products is extensively appreciated for its precision engineering.

**We Offer:** Cutting | Bending | Corrugation | Forming | Welding | Finishing | Coating

Think of us for your next project and we shall be happy to explore ourselves to your satisfaction
