

## DOMINO 70 MONOVALVE TANK FOR CARTRIDGE FILTER

Our intelligent system for cleaning cartridges with low air consumption boasts simplicity of installation and modularity, making it adaptable to different types of systems while ensuring cost-effective washing efficiency. By connecting the Domino tanks in series, a cascade effect is generated, allowing cleaning of up to a maximum of 7 cartridges.

Features of the system include:

- Very silent solution
- Flexibility in storage
- No holes in filter wall
- Easy installation
- No more cabling and bulkhead
- Electric or Pneumatic control
